

## **CLASS-XI**

### **Geography (2025-26)**

#### **SYLLABUS (Theory)**

- \* Introduction to Geography as a subject

#### **UNIT-I (Solar System)**

- \* Earth: - Position of Earth in Solar System, Size and Shape, Movements of Earth and Effects, Longitudes and Latitudes. Time; Local, Standard and International Date Line.
- \* Rocks : Origin, Classification and Characteristics Factors of change;
- \* Weathering and Denudation by river, glacier, wind, oceans and underground water.

#### **UNIT-II (Lithosphere)**

- \* Landforms: Mountains, Plateaus and Plains; Origin, Classification and their significance to mankind.
- \* Earthquakes: Causes, Effects, Types and Distribution. Volcanoes: Causes and effects of Volcanic activities.

#### **UNIT-III (Atmosphere)**

- \* Extents , Layers and composition.
- \* Temperature; Factors controlling temperature, distribution and range of temperature.
- \* Pressures ; Factors controlling pressures, horizontal and vertical distribution.
- \* Winds: Planetary, seasonal and local; Shifting of wind belts and their impact. Cyclones and Anti-cyclones.
- \* Humidity and Precipitation; Relative humidity and Specific humidity Precipitation types, rainfall types and distribution.

#### **UNIT-IV (Hydrosphere)**

- \* Oceans: Ocean basins and submarine relief, Ocean waters and their circulation, temperature, salinity, waves, currents and tides.
- \* Special reference : Geopolitical importance of Indian Ocean

**Note:-A. Examples as far as possible be given from India.**

**B. Answers be illustrated with maps and diagrams**

#### **Map Work:**

Maps : Necessity of maps, classification, scale of maps;

R.F., Linear scale, its use in maps.

Reduction and enlargement through square method.

Direction: Finding direction in the field and on the map, Orientation of Local map in the field, methods of showing direction on the map.

Atlas map symbols: Identifications and Recognition of Symbols of conventional signs used in atlas, Topographic sheet and weather maps.

Methods of showing relief on maps: Contours, Interpolation of Contours identification of simple relief features from contours on a map. Drawing of cross-section,

Observation and recording of various weather elements with the help of following instruments: a) Six's minimum and maximum thermometer. b) Aneroid Barometer c) Wind Vane d) Wet and Dry bulb thermometer e) Rain gauge f) Drawing of isotherms, isobars and isohyets.
